

DECLARE REJECTION OF TREATY WOULD KILL ALL U. S. OBTAINED

Adoption of Amendments Would Mean Sacrifice by America of All Concessions Gained From Germany, is Claim of Minority Report.

**SPEEDY RATIFICATION IS URGED
LONG DELAY GREATLY DEPLORED**

Hint That Politics Being Played by Majority Members of Foreign Relations Committee—Assert Reservation for Purpose of Destroying League.

WASHINGTON, SEPTEMBER 11.—(Associated Press)—Rejection of the peace treaty with its league of nations covenant, or adoption of amendments, would mean sacrifice by the United States of all concessions obtained from Germany under a dictated peace, minority members of the Foreign Relations Committee declared in a report presented today to the Senate.

The report, prepared by Senator Hitchcock, of Nebraska, ranking democratic member of the committee, urged speedy ratification of the treaty without amendments or reservations.

It deplored "the long and unnecessary delay to which the treaty has been subjected while locked up in the committee, whose recommendations were from the start a foregone conclusion," and asserted these recommendations could have been made in July.

Senator Shields, democrat, of Tennessee, did not sign the report, having announced that he favored league covenant reservations prepared by Chairman Lodge. Those signing included Senator Pomerene, of Ohio.

The minority denied the claim put forth in Chairman Lodge's report that the peace conference still was in session and had power "to bring German representatives to Paris," saying such power of compulsion had been exacted and that Germany "had closed the chapter by signing and by ratifying."

"If an amended treaty is not signed by Germany," the report added, "then it is in none of its parts binding on her."

The report mentioned twelve concessions the United States would lose by failure to ratify the treaty, these including industrial economic advantages and agreements.

Reservations proposed by the majority, the report said, were for the purpose of destroying the league, which has stood "the test of world-wide criticism and unlimited attack."

The minority urged that the work of the peace conference be confirmed and the peace of the world advanced by ratification of the treaty, described as the best hope of the world "even if, like all instrumentalities, it be not divinely purposed in every detail."

"Referring to the action of the majority of the committee," said the report, "we unite in opposing and condemning the recommendations, both as to textual amendments and as to proposed reservations."

William Fitch Tanner, Hubbard Woods, Chicago suburb, and his wife were crossing the Northwestern railroad tracks at the station near their home when Mrs. Tan-

ner's foot became caught between a rail and the wooden sidewalk. A train was rushing toward them. Tanner tried to free her foot, but couldn't. When he saw nothing

could be done he stood up, clasped her in his arms and waited with her to meet death. The train killed both. The couple left three little children.

MUST CARRY OUT PLEDGE TO WORLD

President at Billings, Montana, Insists U. S. Must Ratified to Fulfill Pledges.

"Human Hearts Same Everywhere and all Want Peace"

(By Associated Press.)
Billings, Montana, September 11.—Laying his appeal for the peace treaty before the people of Montana today, President Wilson declared the question of its ratification was a question whether the United States would fulfill its pledges to the people and to the world.

There were two addresses on his day's program, Mr. Wilson speaking here at noon so that he could reach Helena, Montana, in time for the meeting tonight.

Mr. Wilson said he had come west to "consult" with the people in the light of circumstances which affected the whole world.

Everywhere, he declared, the human heart beats the same and on both sides of the ocean there was a sincere desire that there should be no war. It was a mistake, therefore, he said, to debate the peace treaty as if it were an ordinary treaty.

"It is not merely a treaty with Germany," he said, "but a treaty affecting the settlement of the affairs of the world."

The league might not prevent all wars, but ten per cent insurance is better than none, he said.

OHIO SENATOR INSISTS DANGER IN PEACE PACT

Harding Declares the Treaty Peril to Nation.

(By Associated Press.)
Washington, September 11.—Declaring his intention to vote for amendments to the peace treaty, Senator Harding, republican, of Ohio, told the Senate today that every day of discussion, presidential utterances included, and every hour of study combined to persuade him that "the league of nations venture in the form in which the covenant has been negotiated, is one of peril to the Republic." To accept it unaltered, he argued, would be a betrayal of America. "I can never vote to ratify without safeguards," said the Senator.

Five Persons Killed is Penalty for Wide-spread Lawlessness in Boston

More Than Five Thousand Armed Men Take up Work of Striking Policemen in Bean City

BOSTON, SEPTEMBER 11.—(Associated Press)—Five persons dead and a score wounded was the penalty paid up to noon today for the lawlessness begun when the police force deserted their posts Tuesday night. Three men were killed in rioting last night.

Margaret Walsh, wounded during the night in South Boston when the state guard fired upon a mob, died this morning. Raymond Bayers, who wore a sailor's uniform, dropped dead with a bullet wound in his neck when he tried to escape from soldiers who broke up a dice game on the Boston Commons.

Governor Collidge today wired the Secretary of the Navy a request that naval forces be held in readiness for a call to supply additional troops for Boston's protection. With six regiments of state guards the Governor has mobilized all forces at his command.

Success in quelling the rioting and suppressing the looting of previous hours marked the efforts of the more than 5,000 troops to a large degree during the night, although in some sections the mobs were not controlled and there were several serious riots.

GOVERNOR ASKS FOR REGULAR ARMY TROOPS

(By Associated Press.)
Boston, September 11.—A request that regular army troops be prepared to respond to a call for emergency duty here was sent to Secretary of War Baker by Governor Collidge today.

The suggestion of federal aid is due to the fear that certain unions affiliated with the striking policemen will carry out their threat to call sympathetic strikes.

Throughout the city this afternoon the state guard did patrol duty, directed traffic and kept the crowd moving.

RUIN IS LEFT IN THE WAKE OF HURRICANE

(By Associated Press.)

Key West, Fla., September 11.—With daylight today following the storm of yesterday and a night of darkness, the people of Key West and surrounding territory were able to survey the destruction wrought by the hurricane that swept through here.

Not a building in the city escaped damage and many were totally wrecked.

The harbor presented a tangled mass of fishing vessels and other small craft. Of the 14 men on the dredge Grampus, ten were rescued last night, one body was recovered and three are missing.

Reports from Havana tell of considerable loss to vessels and report deaths anywhere from seven to ten.

MANY ADRIFT IN LIFEBOATS

(By Associated Press.)

Miami, Fla., September 11.—A wireless message received here today said 45 persons were adrift in small boats between Fowey Lighthouse and Cape Florida, about 15 miles from here. All were reported in distress and without food or water.

It is presumed they were members of crews of ships that went down during the hurricane. Boats have been sent to the rescue.

MORE TERRITORY WANTED BY OHIO M. E. CONFERENCE

Columbus, O., September 11.—The Ohio Methodist Episcopal Conference, which opened yesterday at Franklin Park Church, wants the other two conferences of this state, the west Ohio and the northeast Ohio, to give up part of their territory so as to make the three of equal size.

The two big conferences are opposing the plan. Leaders of the Ohio conference assert that the report of the west conference on the subject last week, opposing the scheme, used language "unbecoming a minister," and that it had to be edited by the higher-ups before it was printed in the record.

The report was made by Dr. Cyrus Van Pelt, retiring district superintendent of the Findlay district.

Ohio conference leaders yesterday said they had been trying to get a copy of the original report of Rev. Dr. Van Pelt but haven't succeeded. They want the document, they say, to show the committee on boundaries of the general conference at Des Moines next spring how "unfair" the west Ohio conference is in its opposition.

The northwest Ohio conference, which meets next week at Youngstown, also is expected to go on record in opposition to area equalization.

West and northwest conferences, it is said, have about 500 ministers each, while the Ohio conference has only about half that number. The local conference is confident it will win out, however, at the general conference. Its proposal is to divide the state into three equal districts running north and south from lake to river.

OFFICIALS FIND MANY DEAD FISH

Officers and a half score of members of the Fayette County Fish and Game Protective Association accompanied Deputy Warden Frank Hard to Jeffersonville, Wednesday, for the purpose of investigating the conditions which resulted in the death of large numbers of fish in the creek below Jeffersonville, presumably as result of the Canning plant at that point polluting the stream.

Many dead fish were found and many in a dazed condition were reported. Samples of the water were taken and forwarded to Columbus for analysis to ascertain what was being drained into the creek that would cause the death of the fish.

The management of the canning plant is reported to have declared that nothing was being drained into the creek that would kill the fish, but according to officials of the Association, no dead fish could be found north of the point where the drain reached the creek.

It is expected that the State will assist in steps to prevent a recurrence of the trouble.

STRANGE FREAK OF THE BIG FIRE

In clearing away the debris of the big fire of Monday night when the warehouse and part of the lumber yard of The Coffman Manufacturing Plant was burned, the workmen came across a bundle of lumber with a hemp string tied around it which, in some unknown manner, had escaped the flames.

The bundle of lumber was found in the center of where the warehouse had stood and although the boards had been burned to within a foot or two of the cord on either side yet it was still holding the lumber firmly together.

It has not been determined how the cord could have escaped the flames.

Let's Remember

The welcome home which America extended to General Pershing when he landed at the port of New York on Monday was typical of the feelings of an appreciative people—a tempestuous and whole-souled greeting.

It was one which brought a trace of tears to the eyes of the silent and reserved man of war—one which he will remember through all the years to come as the big day in his life—a day such as comes to few men.

Yet with all the unanimous expression of appreciation and gratitude in that great welcome home greeting, one cannot help thinking what a change in public expression would occur if General Pershing would listen to the voice of the selfish tempters and become a candidate for political preferment. How the petty politicians would bark and snap at his heels—how they would misrepresent and misquote him and how they would abuse him and belittle his tremendous service.

We don't know to what, if any, political party General Pershing acknowledges allegiance and it does not make any difference. The result would be the same.

Indeed, whether or not General Pershing enters the political arena as a candidate, it is not improbable that he will be cross examined by little politicians who will seek to destroy his fame if they can't capitalize it for their own use.

His conduct of the campaigns in Europe may become the subject of investigation which will purpose to discredit the whole work because some relative or henchman of politicians was not honored or favored.

thing is part of the great plan, we can't help wondering just where the good of all this tomfoolery, in public affairs, comes in.

General Pershing though, no matter what comes in the way of petty, selfish and spiteful attacks, will always know that the great American people are with him and appreciate his work and the noise is only made by the few.

Are They at Work?

In his speech at Sioux Falls President Wilson declared that element of our population which, during the war, we designated as pro-German, was still hostile toward the real interest of the American people and was operating to prevent the ratification of the peace treaty and the league of nations covenant.

That's a serious charge and, made by the chief executive of the United States in an open declaration to the people of the nation, must be accorded much more serious consideration than the charges hurled back and forth by angry senators in the heat of bitter partisan debate.

It is to be regretted that the chief executive was not more specific in his serious charges. It must be presumed though that he is in possession of specific information which justifies his statement.

If that traitorous element is still active in politics then no denunciation is to severe and no charge can be too specific.

The people of America cannot tolerate any interference by a traitorous and disgruntled pro-German element and every public official who seeks to cater to or placate such an element for political advantage is as traitorous as the element whose support he seeks to win.

We must crush the head of the viper of treason right at the threshold of the temple of peace we are seeking to erect. There must be no side stepping or codling an element which is bent on destruction now just as much as it was in time of war.

The Showers

The showers of Tuesday night and Wednesday, although properly classified as local, will do an immense amount of good to corn and grass which was really suffering from the drought.

Corn, though matured nicely, was drying up a little to rapidly for the convenience of those who must handle it at cutting time and threatening to ruin the fodder. The pastures and the clover fields were really suffering for a good generous downpour of rain.

In the urban sections the showers came as a welcome relief to folks whose lawns were brown and dry. The showers, too, will have a decided tendency to check the falling leaves and hold them on the trees until, later on, the frosts can tint them with the brilliant autumn colors.

Too much drought, in the earlier days of September, strips the trees of leaves almost as completely as will a killing frost.

We want our pastures and meadows and lawns freshened up a bit and the grip of the tiny leaves tightened on the limbs to be used as pallets by Jack Frost, when he comes, to mix his autumn colors on.

POETRY FOR TODAY

NIGHT RIDING.

Cramped within walls, I long for eve
to come,
Then, change from mole to moth. I
take my flight,
Whirling my eager way into the
night;
Noiseless my wheels and low my en-
gine's hum,
Hey! For the joy of riding swift,
Watching the arc lights past the
drift,
When dusk has set me free!

Arched trees o'erhead make me a
wondrous cave
That I fly through. Each leaf shines
in the glare—
Whistling chill the wind blows
through my hair;
Now can I loose the chains that Na-
ture gave.
Hey! For the lure of the empty
road,
When the speed fiend pricks with
ready goad,
And I sing in wordless glee.

Slow trudging souls n the dust— out
of the way!
Tonight is mine! Tomorrow—what
know I?
The miles flash past beneath my de-
mons sway.
The roadway reels behind me,
straight as a die.
Hey! For the magic of sleeping
towns,
The brooding woods and the open
downs,
The world lies waiting for me!

"Gets-It" Peels Your
Corns Right Off

Two Drops Will Do It Without Fuss
or Trouble. Never Fails.
There's only one way to get rid of
a corn, and that is to peel it off as
you would a banana skin. There is
only one corn remover in all the
world that does it that way, and that

There's No Corn "Gets-It" Will Not "Get-
it." It is because of this
fact that "Gets-It" is today the big-
gest seller among corn-removers on
this planet. It means the end of
"scrubbing." For hard corns,
soft corns, very old corns, young
corns, corns between the toes and
calluses, it means a quick, certain
finish. "Gets-It" is applied in 2 or
3 seconds. All you need is 2 or 3
drops. As easy to do as signing
your name. It does away forever
with tape, plasters, bandages,
knives, corn-diggers, scissors, files
and blood-bringing razors. Ease
your corn-pains, be corn-free at last.
"Gets-It," the only sure, guaranteed,
money-back corn-remover, costs but
a trifle at any drug store. WFD by

couldn't straighten. I suffered with
intense pains through my back and

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

No lovelier affair has been given in the rekindled social activities following the war than the Bridge luncheon at which Mrs. R. C. Peddicord and Mrs. R. M. Hughey were most charming hostesses, Wednesday afternoon.

Flowers in artistic arrangement, fall roses and garden flowers, were in profusion throughout the spacious Peddicord home where twenty-five beautifully gowned women were seated at small tables for an elaborate four course luncheon. Baskets of callulas, marigolds and yellow daisies graced each small table.

In the game of progressive Bridge which followed the luncheon hour Mrs. Frank L. Stutson won the trophy for high score in progressive, a beautiful corsage bouquet of pink rose buds.

Mrs. Peddicord and Mrs. Hughey entertained with a second luncheon at Mrs. Hughey's home Friday.

Misses Catherine and Sue Williams pleasantly entertained the Loyal Daughters class of the Christian Church, Tuesday evening, at their home on N. North street.

It was announced at the regular meeting, but was in reality a surprise miscellaneous shower for the president of the class, Miss Anna Hatfield, whose marriage to Mr. Charles Bryant will be solemnized in the near future.

Miss Hatfield received a number of useful gifts for her new home, and warmly expressed her appreciation.

A social hour with elaborate refreshments rounded out the evening.

The Ladies Aid Society of the Methodist church of Good Hope, met Wednesday afternoon at the home of Mrs. D. R. Murray and elected all new officers.

Mrs. Eva Braden was chosen president; Mrs. Clara McCoy, Mrs. Mary Lough and Mrs. Whitmer, vice presidents; Mrs. Edith Smalley, secretary, and Mrs. Ota Holdren, treasurer.

Mr. and Mrs. Fred Clemens extended the hospitality of their home on the Jasper Mills road, to the September meeting of the Selden Grange, Tuesday evening.

Twelve members responded to roll call, and after the business session there was an enjoyable program. Mrs. George Cline and Mrs. Clemens gave readings, and Edison music varied the program. Interesting discussion on important farm issues followed.

Delicious refreshments were served before the meeting adjourned to meet with Mr. and Mrs. J. L. Mark the second Tuesday in October.

Miss Mary Lee Barker, youngest daughter of Mrs. T. Barker and Mr. Wallace C. Perrill only son of County Commissioner and Mrs. Louis Perrill were united in marriage, Wednesday afternoon at the home of the bride in Jeffersonville.

It was a very pretty wedding a profusion of summer flowers from the home gardens tastefully used in the decorations.

At the appointed hour, two-thirty, the bride's sister Miss Corinne Barker played the wedding march and the young couple, with their attendants, Miss Gustava Carr, maid of honor, Mr. Elsworth Vannorsdall best man and Dorothy Cannon a cousin of the bride, as ring bearer took their places.

Rev. H. K. Wishon, of Columbus, former pastor of the M. E. Church in Jeffersonville, performed the double ring ceremony.

The bride a decided brunette was lovely in pale blue silk net effectively banded in ribbons, and carried an armful of pink rosebuds. Miss Carr in a pretty gown of pink messaline, and the little ring bearer in a dainty white frock with big pink sash completed an unusually attractive bridal party. Miss Carr also carried rosebuds.

Immediately after congratulations

an elaborate two course dinner was served.

Mr. and Mrs. Perrill left for a short wedding trip, and will visit friends in Springfield, Bellefontaine and Toledo on their journey.

The bride's going away costume was a modish suit of dark gray with hat gloves and shoes en suite.

Both bride and groom are very young, the bride graduating from the Jeffersonville High School in May. The groom attended a military school in Kentucky and later Bliss College in Columbus.

After October the first, Mr. and Mrs. Perrill will be at home on the Perrill farm at Locust Grove three miles from Jeffersonville where they have a new modern home, just completed.

SPECULATION
ON BIG STRIKE

(By Associated Press.)

Washington, September 11.—With a strike of organized steel workers called to take effect September 22 in disregard of President Wilson's request that the unions postpone action pending the coming industrial conference, speculation as to the next development centered on the possibility of the President again taking a hand in the matter, either to urge reconsideration of the strike order or receive a hearing of the unions by the United States Steel Corporation.

APPEAL MADE FOR
NEEDY ARMENIANS

An appeal has been made by the local Red Cross for clothing for the two brothers and their families of Rev. D. H. Rejy. Rev. Rejy has received word from his brothers in Armenia that clothing is almost impossible to secure and that much suffering is caused by the lack of it.

Local citizens are asked to bring their discarded garments to the Red Cross rooms. The two men are size 40; one of the women size 40; one woman size 36. Three boys in the family are ages 4, 6, and 8. One little girl is 3 years of age.

If an extra amount of clothing is received the surplus will be retained for the poor of this city.

SHAKE-UP IN
LOCAL TEAM

Sunday's defeat of the Washington Athletics by the Wilmington Clintons and rumors set afloat have terminated in a general shake up of the local ball team.

It seems that one or two players have been stood on "the carpet" as to the cause of the humiliating defeat. The local management is much perturbed over the game and no effort will be spared to sift the matter to the bottom. It is announced.

Thursday, a meeting was held in this city by the members of the team in an effort to clear-up the matter. It is announced that, although radical changes were considered, the lineup will remain virtually the same for the present, at least.

A repetition of the game of last Sunday is not likely to occur again, it is believed.

BERGHOLZ — Moyne Donaldson, aged 25, was killed and his wife fatally injured when their auto plunged over an embankment near here. Both were pinned under the machine all night.

LIMA — Four Lima business men have announced plans for a \$200,000 auditorium to seat 4000 people. Popular subscription to a stock issue will be asked, but no dividends will be paid.

C. A. Gossard & Co.NORMAL WEATHER
CONDITIONS AFTER
GENERAL SHOWERS

Columbus, Ohio Sept. 11.—Showers occurred the past 24 hours in northern Ohio and the Lake Region and westward over the upper Mississippi Valley; also in the Red River of the North Valley, east and central North Dakota and in small areas in Nebraska and Montana. There was great variation in the amounts but exceeded an inch at several stations in north-east Iowa and eastward two inches falling at Minot, N. Dak., and three inches at Decorah, Iowa and Prairie Du Chien, Wis. The heat wave continues over the southern half of the region but the temperature is now near normal over northern sections.

Crop report for the Ohio section for the week ending September 9 is:

Weather conditions were generally favorable for farm work and crop development though quite warm the last

days of the week. There is still a small amount of barn trash to be done. Corn continued to make good to excellent progress and its condition is generally very good to excellent. Cutting was commenced in many places and will become quite general the coming week. The bulk of the crop will be safe from serious damage from frost by the middle of the month except in the lake counties where from 10 to 15 days longer will be necessary. The tobacco crop is only fair, having made little gain during the week. A fair to good crop of grapes is being realized but all other fruit crops very poor. Plowing for fall sowing is now well advanced.

Washington, D. C. reports comparatively warm, dry weather that prevailed over most districts east of the Rockies was favorable to maturing crops but the soil was too dry for the best advance of late crops and fall plowing in most interior districts.

Showers over the far west and northwest benefited ranges and late crops. Corn is ripening rapidly and the bulk of the crop will be safe from frost in Ohio and Illinois by September 15th to 20th and 75 percent in Iowa by the 20th. Corn made very poor progress in portions of Kentucky, Missouri and most of Kansas. The condition of the corn crop is very satisfactory in central Missouri, most of the upper Ohio Valley, northern Illinois and in Iowa. There was some delay in the harvesting of the late grain in the far northwest but conditions were favorable to the thrashing of small grains in other districts and this work is now well advanced. Late potatoes and truck crops need rain in many central and northern districts, the warm, dry weather being generally unfavorable to potatoes.

WILLIAM H. ALEXANDER, Meteorologist.

COLORED CITIZENS WILL CELEBRATE

A large number of colored citizens of this city will attend the big Emancipation Day celebration at Chillicothe, when more than 3000 negroes are expected to be present.

The event will be an all day picnic and celebration at the Old Fair Grounds, Sept. 22, which will mark the 300th anniversary of the landing of the first negroes in this country at Jamestown in 1619, the anniversary of the declaration of the emancipation of the negro from slavery fifty-seven years ago, and last but not least a celebration and welcome-home for the colored men who fought overseas for the perpetuation of democracy.

An excursion will be run from Columbus carrying the famous Ninth Battalion Band, that played its way through the German lines, and a large number of negroes from Franklin County who have promised to join with Ross counties in observing the day. Other towns that have promised to join in the local celebration are Greenfield, Circleville, Waverly and other nearby towns.

RED BLOODED MEN WIN OUT

They Are Always on Top In Every Walk of Life

It is a fact that red blooded men and women are at the top in every walk of life. Men and women with the driving force of red blood, rich in iron and phosphates do things, they get results.

Red blooded women are the heads of the household and most contented homes, they have the will and the desire to be real companions and helpmates.

Leadership and happiness is only for the men and women who are willing to keep their blood and nerves strengthened and nourished with iron and phosphates.

A prominent doctor says: "It is a crime that so many men and women lack the rich, red blood and strong healthy nerve system. Their ambitions. It is all the more so because this watery blood is unnecessary, as rich, red blood and strong nerves are within the grasp of everyone. Phosphated Iron makes pure blood re-makes new blood. It gives strength, brings color to the cheeks, increases the weight and appetite, drives away the blues and those sleepless nights, steadies and renews your nervous system, and you feel like a frog one week again."

There must be something to it. Everyone who tries it is told in words of phosphated iron and you know you to show results these days.

To insure physicians and their patients, prescribe the genuine Phosphated Iron. It has been put up in capsules only. Do not allow dealers to give you pills or tablets. Insist on capsules.

SALE OF \$50,000 HOSPITAL STOCK IS AGREED UPON

Conference On Wednesday Night Results in Goal Being Fixed For Hospital.

Stock Will be Offered For Sale in Very Near Future, It is Announced.

The amount which will be the goal the workers will seek to attain in their solicitation of stock for the new Fayette Hospital project, has been fixed at \$50,000.

At a meeting Wednesday evening at the Y. M. C. A. of the chairmen, committeemen and directors which have been appointed, this amount was established as the necessary fund to be raised in order to remodel, build to and to refurnish and equip the Persinger homestead into an up-to-date and thoroughly modern hospital.

The hospital as planned will be of 36 beds. According to the state law, as cited by Dr. Roy Brown, this will permit the establishing of a nurses' training school. The state law requires that a hospital to do this must have 30 beds with an average of 15 patients.

Tentative plans were discussed and it was pointed out that in addition to the work of remodeling the rooms and refurnishing that a wing must be added to the present building, a heating plant installed, a laundry equipped, and an elevator built.

Short talks were made by the majority of those present and all were of the opinion that the new hospital was an absolute, immediate necessity.

In a forceful talk Dr. Todhunter summed up the present congested condition of the hospital.

"The people of this county," he insisted, "would put up \$50,000 for the hospital without a murmur if they but knew the conditions under which the steady stream of patients are cared for."

Tentative plans were also discussed as to the date for holding the county-wide drive for the selling of the stock. It was decided that a meeting would be held next Wednesday evening at the Y. M. C. A. for the purpose of settling this question and the working out the campaign.

A publicity committee consisting of Joseph H. Harper, George H. Hitchcock and Forrest L. Tipton was appointed.
